TECH-800 GREENHOUSE REPAIR TAPE

PRODUCT DESCRIPTION

Tech-800 Greenhouse repair tape is a high-performance single-sided transparent PE tape produced with a high-quality modified PSA adhesive(150 g/m²) and a double-sided silicone-coated glassine liner(100 g/m²).Thanks to the special components used in its adhesive,it provides superior resistance to UV rays,moisture and weather conditions.It offers an optimal balance between adhesion strength,shear resistance and temperature resistance.

APPLICATION AREAS

*Repair of greenhouse covers,tunnel films and agricultural covers.

*Protection and strong adhesion on Iron,Steel,Aluminium alloy surfaces and similiar substrates

*One-sided bonding,repair and joining applications on surfaces such as tents and tarpaulins

FEATURES

*High resistance to UV rays,moisture and outdoor conditions

*Strong adhesion to PU,PE foam,bitumen,felt,plastic and similiar materials

*High performance in lamination processes

*Suitable for general repair and bonding applications

The data on this sheet have been compiled according to the last laboratory report.Technical characteristics can be changed or adapted.We are not responsible for any incomplete information.Before use,one needs to ensure that the product is suitable for this application.Therefore,tests are necessary.

TECHNICAL SPECIFICATIONS

Thickness/Mic	300 +/- 10%
Liner weight(gr/m ²)	100 +/- 10%
Loop tack N/25mm	≤27 AFERA-5014
Operating temperature	-30°C / +130°C
U.V resistance	Excellent
Adhesion on steel N/25mm	≥ 45 PSTC-101
Shear 23 C ⁰ Hour	≥ 18 PSTC-107
Roll length(mt)	25
Standard sizes(cm)	5/7,5/10/15/20
Color	Transparent-Does not block natural light
Shelf life	12 months,Rolls should be stored vertically,away from direct sunlight,at room temperature(20C ⁰) and %50 relative humidity

RECOMMENDATIONS

*The application surface must be clean,dry and free from oil and release agents.
